This Month's Program: Redwood as a Sustainable Building Product

This presentation offers insight into redwood as a sustainable building product.

The members of the California Redwood Association have a long history of environmental stewardship and a reputation for some of the more progressive and innovative voluntary forest and wildlife management programs in the industry, tapping the sun for energy and soaking in California's famed North Coast fog.

The details and results of a recent Life Cycle Assessment comparing redwood and plastic/composite decking options will be shared and will also share information about redwood's Environmental Product Declaration.

Philip Herman

Industry History

9 years in the lumber business with Allweather Wood and Humboldt Redwood

Manager, Business Development

January 2014 – Present, Allweather Wood/Humboldt Redwood, Loveland, CO

Sales & Marketing

February 2011 – December 2013, Allweather Wood/Humboldt Redwood, Washougal, WA

Assistant Account Manager for Lowe's Customer Account

February 2010 – Present, Allweather Wood, Washougal, WA

Sales Representative

February 2006 – January 2011, Allweather Wood, Loveland, CO

Education

Master's in Business Administration Degree

October, 2007 – December, 2009 Regis University, Denver, CO

Bachelor of Science in Business Administration

September, 2000 – May, 2004 University of Northern Colorado, Greeley, CO
Management Emphasis

Evidence will be provided that shows redwood makes it easy to build sustainably without sacrificing quality or elegance. It will also provide information on how redwood is renewable and recyclable, and cleaner to produce than composites or plastics.

Humboldt Redwood Company was formed in 2008 and is working to cultivate a lasting legacy of environmentally responsible forestry and sourcing, manufacturing, and distribution of top-quality redwood lumber products. Offering the Humboldt Redwood and Allweather Wood treated lumber brands, we form lasting partnerships with lumber dealers and home improvement retailers in order to bring these products to you.

We offer a unique mix of products for outdoor living and home improvement projects, including materials that are obtained from environmentally responsible sources. Based in California, Humboldt Redwood is committed to sourcing and manufacturing environmentally responsible products whenever possible. The company maintains chain-of-custody certification for its Scotia, California sawmill, Woodland and Fontana, California distribution centers, and its forestry operations through the Forest Stewardship Council (FSC).

THE PRESIDENT'S CORNER

I would like to thank Shirley Lammers from Illumination Systems and the staff at Eaton Cooper Lighting for hosting last month's tour of their facility. The tour was very interesting and provided a lot of insight on lighting manufacturing.

Last month's election was a success. Congratulations to next year's board members. Shane David will be taking over as President and Joni Zimmerman will become President-Elect. Rob Hixon will join us as Vice President. Luke Bleichrodt will be Secretary. Also, Ben Pollock, Bob Stanton, Greg Gulliksen, and Charlie Lengal were re-elected as Directors.

This month's program will be by Erica Savage on sustainable redwood on May 27th. This will be our typical lunch meeting at South Side Johnny's.

Unfortunately, I will not be able to attend the last meeting and end of the year party. I have taken a new position with a new company in Sacramento, CA. I want to thank everyone for their support and the opportunity I was given to serve as President this year.

Mark Glass, CSI, PE
Pikes Peak Chapter President.

Have you joined our PPSI LinkedIn Group?

We've established a new group page specifically for our PPSI members and guests. You should have received an invitation to join the group. If you have not, please contact Joni Zimmerman at jzimmerman@tk-architecture.com, or search on LinkedIn for Pikes Peak Chapter CSI.

We want this page to be an interactive discussion board for our group, as well as the place to go to find out what's happening for PPSI. We want to hear from you about topics that are of interest to our community.

UPCOMING EVENTS IN THE REGION

USGBC Emerging Professionals Event

RTA Architects would like to invite the Emerging Professionals of the USGBC Southern Colorado Branch to participate in a Networking Event. RTA will be discussing a middle school that was completed about a year ago in Ignacio, Colorado that incorporated solar chimneys and a night flush system using automatic operators on the windows.

May 27th
5:00 pm
RTA
19 S. Tejon Street,
Suite 300
Colorado Springs

Engineers Without Borders and ASCE Younger Members Event

The Ivywild School
1604 S. Cascade Ave
Colorado Springs, CO

May 21st from 5pm to 7:30pm

We Make It Easy to Specify the Right Paint

WALLS - FLOORS - ROOFS - EXTERIORS - STEEL - CONCRETE - DRYWALL

We provide a full range of solutions to protect and beautify every area of your project — from wall paints and high performance coatings to resinous floor systems and epoxy terrazzo flooring. Sherwin-Williams can help meet your requirements for aesthetics and durability. Plus, we have the most comprehensive lineup of coatings that meet the environmental regulations set forth by a variety of guidelines including LEED, MPI, GEI, CHPS, CARB and more.
