

Pikes Peak Chapter

The Construction Specifications Institute

January, 2016

Volume 47, No 4

This Month's Program: DESIGNING AND DETAILING EXTERIOR WALL FOR MOISTURE CONTROL

ABOUT THE PROGRAM:

The program will address:

- Design principles of fluid applied weather barriers
- Continuous Insulation (CI)
- Exterior Insulation and Finishing System (EIFS)
- Exterior stucco finishes as they relate to EIFS

SPEAKER BIO: ANDY TOWNES, PAREX USA

Andy Townes, CCPR, CSI, has been with Parex USA for 25 years representing the El Rey Stucco, Lahabra, Teifs, Parex, and Merkrete brands. He most recently served as the Regional Programs Chair for the Southwest Region of the Construction Specifications Institute. Andy has also served as Regional Membership Chair for CSI National. His committed service is complemented by other notable professional accomplishments, including earning his CDT in 1992 and becoming the first to earn the CCPR in the state of New Mexico in 2004. He is the Architectural Sales Manager for Parex USA in the Rocky Mountain region, servicing New Mexico, Colorado, Utah, and Arizona.

Andy is always happy to share his knowledge and experience of construction and materials to assist members of the design profession with their stucco (CI), Exterior Insulation and Finish Systems, EIFS, Water WRB, Tile setting. He's built a reputation for his ability to develop practical, cost effective solutions, and provide responsive and timely service.

Date: Wednesday, January 27, 2016
Time: 11:30 a.m. to 1:00 p.m.

Southside Johnny's
528 S. Tejon Street
Colorado Springs, CO 80903

Monday, January 25

CDT Spring Exams are coming!

Early Registration deadline: Jan 31

Late Registration deadline: Feb 29

<http://www.csinet.org/cdt>

THE PRESIDENT'S CORNER

Hope everyone had a wonderful Christmas season. December provided the Pikes Peak Chapter a wonderful opportunity to tour the newly operational Edward W. Bailey Water Treatment Plant. I have heard several great comments about the tour and they make me jealous that I wasn't able to participate in it. One comment that was shared with me from an attendee describes the tour the best. They said, "I really didn't think it would be that interesting, but it was amazing! I'm glad I came." I think that sums it up, I would like to thank David Marciniak and his team with CSU and the Southern Delivery System Program for hosting our Chapter and providing a rare glimpse into the utility infrastructure that keeps our beautiful city going and growing.

Likewise, January's meeting presenter is always great and full of information. Andy Townes with Parex USA will be visiting our Chapter from Albuquerque, NM as a guest of Pat Joyce with C&C Sand and Stone Co. Andy will be sharing a program on the latest technologies and information concerning EIFS and the use of continuous insulation in building envelope detailing. In getting to know Andy through my ten+ years in CSI, he has become one of those key people that I can always recommend to others as a problem solver for stucco and EIFS construction detailing. Please give him a warm welcome. Also, C&C Sand and Stone Company is this month's table top presenter.

The month of January is also the beginning of the early bird registration for the CSI Certification exams. If you have not taken advantage of any of the certifications that CSI offers then I would highly recommend that you look into it. No matter what side of the table you find yourself on at an OAC meeting; CSI's Construction Documents Technologist (CDT) exam will make you a more confident and competent communicator in today's construction world. After the CDT, you can further hone your skills by becoming a certified Construction Specifier (CCCS), Construction Contract Administrator (CCCA) or a Construction Product Representative (CCPR). If you are interested in finding out about the CSI Certification program then copy the link below into your web browser.
<http://www.csinet.org/main/certification>

Finally, I wanted to let everyone know that we have awarded the 2015-2016 Herald R. Holding Scholarship to a hard working Interior Design student at Pikes Peak Community College. In addition to the financial reward to the scholarship winner this year, the Pikes Peak Chapter Board has voted to offer each of the top three HRH scholarship candidates a complimentary one year student membership to CSI and our Chapter. It is the Boards plan to continue this membership offer each year to the top three scholarship candidates. This year's winner is Needra, she will be graduating from PPCC in another year with an Associates of Applied Science Degree in Interior Design. Needra has also accepted our offer of the free CSI student membership so if you see her at any of the meetings please introduce yourself and help her make those much needed connections in our local design and construction community.

2015 CSI SOUTHWEST REGION and CSI SALT LAKE CITY CONFERENCE

SAVE THE DATE REGISTRATION OPEN DECEMBER 7, 2015

- Dates: March 31st, April 1st, and April 2nd 2016
