This Month's Program: Wednesday April 27

AIR BARRIER 1 / CHOICES OF AIR BARRIERS FOR COMMERCIAL BUILDING ENCLOSURES

ABOUT THE PROGRAM:

Introduction:

After attending this seminar, you will be able to understand:

- ◆ The impact of air leakage on building enclosure performance
- ◆ Basic features of Self-Adhered air barrier systems (SA)
- ◆ Basic features of Fluid-Applied air barrier systems (FA)
- ◆ Basic features of Mechanically-Fastened air barrier systems (Building Wraps)
- ◆ Basic features of Spray Polyurethane Foams (SPF) and other (e.g. Board Stock) air barrier systems

SPEAKER BIO: JOHN PRICE, RW SPECIALTIES

John Price is a Senior Certified DuPont Tyvek Commercial Specialist with RW Specialties. A lifelong member of the building industry, John is recognized as a trusted advisor among industry professionals and his peers, many of whom he has educated on the proper steps and resulting benefits of when using DuPont Tyvek Weatherization Systems.

John is passionate about protecting the building envelope and is thrilled to be a part of the DuPont Tyvek Specialist network. If you ask him what he enjoys most about his job, he'll tell you it's the never ending variety of responsibilities. Whether he's conducting CEU's for architects and designers, providing field support for G.C.'s, training installers, performing jobsite observations, or just discussing new opportunities with other experts in the field, he loves that every day offers something unique.

A believer in balancing work and play, John spends his off hours enjoying all Colorado has to offer, including fly-fishing and long motorcycle rides with his wife (cycle therapy).

Date: Wednesday, April 27, 2016

Time: 11:30 a.m. to 1:00 p.m.

Southside Johnny's

528 S. Tejon Street

Colorado Springs, CO 80903

MARCH VELODROME TOUR

THE PRESIDENT'S CORNER

Recently, I read this quote by John F. Kennedy at the beginning of an e-mail from the Institute's President, Lane Beougher.

"Change is the law of life. And those who look only to the past or present are certain to miss the future."

The Institute Board has been contemplating the bright future of CSI and will be bringing forth additional information and recommendations via e-mail and also in the upcoming May issue of *The Construction Specifier* magazine.

How does this quote apply to our Chapter?
 How does it apply to our Chapter Board?
 How does it apply to you the member?

Focusing on the future is important to the Chapter Board and we would like to get your input on several aspects of how we as a Chapter are doing and what (if anything) you would like to see changed in the future. To do this, we will be providing questionnaires via both e-mail and at this month's meeting. Please return these questionnaires with your honest answers and comments. After all, this is your Chapter and if you do not feel the need to help guide its direction then we as a Chapter will certainly miss its future while we are only thinking about the now or remembering the way it was "back in the day".

The Pikes Peak Chapter's immediate future is bright with new members joining our ranks each month and the upcoming Board changeover in July. As always, when a new President comes into office their infusion of new leadership and goals is refreshing to the Chapter. At the time of this writing we still need someone to fill the VP slot and someone willing to take over the Membership Chair position for the upcoming Board. Please contact me if you are interested in serving on the Board in any capacity.

If you were able to attend the March meeting with Diane Miller from JE Dunn I am sure you will agree that it was a very interesting, thought provoking presentation on networking. The information on the four stages of relationship development that Diane covered could be applied as soon as you left the meeting. If you are interested in receiving the slides from Diane's presentation last month please contact me and I can forward them on to you.

This month's meeting presentation will be focusing on Air and Moisture barriers in the building envelope. The presenter will be John Price with RW Specialties. Lastly, the tabletop will be provided by Bolyu Contract Carpets and presented by Kimberly Lynch. Thank you Kimberly for supporting our Herald R. Holding scholarship efforts with Pikes Peak Community College!

Thank you for your time fellow members.
 Shane David,
 CSI Pikes Peak Chapter President

CSI Pikes Peak Podcasts?

The Pikes Peak Chapter of CSI is currently researching the feasibility and member interest for live Podcasts of monthly luncheons.

Please contact anyone on the board if you are interested in this possibility. If you know how to set this up or who to call, please pass that information on to any board member as well.

TABLE TOP SPONSORSHIPS

FOR PIKES PEAK CHAPTER LUNCH MEETINGS

Ever wondered how you could reach out to a large group of construction industry professionals and not have to spend a lot of money? Of course you have! Again this year, the Pikes Peak Chapter is offering table top presentations at our monthly Chapter meetings. For those of you not familiar with how a table top sponsorship works, it goes something like this.

You, as a product representative, schedule to attend one of our monthly Chapter meetings. Space will be provided to set up a table top presentation so you can meet people as they filter in. Then you will be given a few minutes at the onset of the meeting to speak about your product to the entire group. As the meeting concludes you will have opportunity to follow up with individual members and guests. Your presentation may include flyers about your product, give-a-ways to those in attendance or even a couple of door prizes. At this point you are probably asking yourself, 'what is the cost?'

The Chapter has set a fee of \$150. To put this in perspective, consider the cost of a box lunch presentation for about ten people. At our Chapter meetings you will have the opportunity to reach out to thirty or more professionals in the construction industry. Even though you will not have the full hour, as in a typical box lunch presentation, introducing your product to a group this size could have a big payoff. Our Chapter meetings are held on the last Wednesday of the month from 11:30 am until 1:00 pm. To schedule a table top for one of our Chapter meetings please contact Shane David at (719) 578.9317 or sdavid@hlarch.com. We are looking forward to having you as part of our Chapter meeting.

\$150 includes:

- Full page ad in The Intent (for one month)
- Table Top presentation at member lunch meeting
- 3-5 minutes to present to the members at the onset of the CSI lunch meeting
- Presenter can invite 2 guests/potential buyers

Upcoming Program Dates

Folks, please make sure to mark your calendars for the following dates and join us for our Monthly Meetings!

Wednesday, May 25
Year End Party – Location TBD

Don't forget to bring a friend or co-worker or send someone in your place if you can't make it!

MEMBER SPOTLIGHT—NEEDRA KRUSE PIKES PEAK COMMUNITY COLLEGE STUDENT

I am a new member of the Pikes Peak Chapter of CSI thanks to the Herald R Holding Scholarship. I am a full time student at PPCC in the Interior Design program. I am looking forward to beginning my career when I graduate with an associates degree in December. I hope to be hired by a local architectural firm.

I am originally from Independence, Missouri, a suburb of Kansas City. We moved to Colorado Springs in 2004 with my husband's Army PCS. We fell in love with the mountains and small city living and have made Colorado Springs our home.

I started my school/career life later than most to focus on raising a family. I have been married for 23 years and have three grown children. Two live here in Colorado Springs and the youngest in Okinawa as a Navy Corpsman.

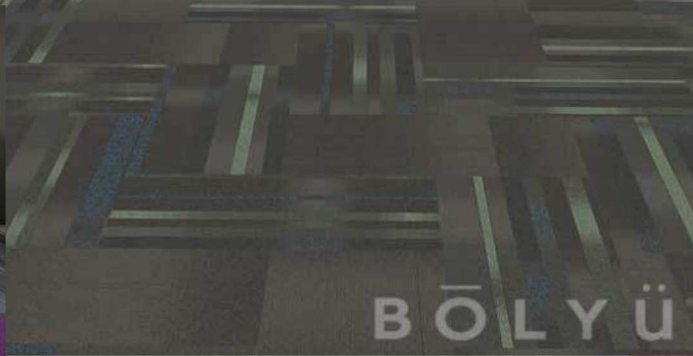

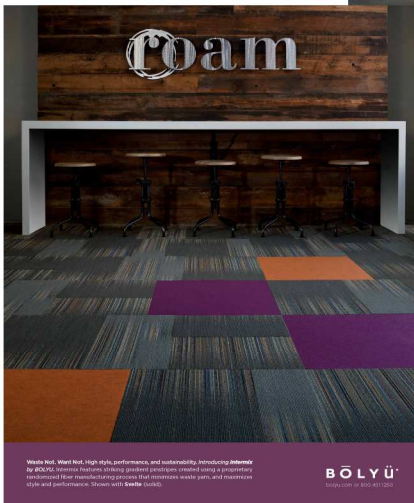

One of the benefits of waiting so long to start school and choose a career is I've had a lot of time to realize my talents, strengths, and passions. My father was an art teacher and I have always been gifted in that area. Interior design seems to be a perfect fit. I have discovered that my refinement in art has translated very well to this field. I am very proficient at hand and computer aided drafting, as well as hand rendering. I realize how valuable the speed of computer rendering is to our field so I am also taking Revit this semester. Commercial design is currently direction I am headed. Although my artistic ability might be put to use in the residential arena, I enjoy space planning and designing efficient layouts that would be better utilized in a commercial setting.

I am grateful to be a member of CSI. I look forward to working alongside builders, designers, engineers and architects alike. I am excited to continue my learning experience and build relationships with the CSI community.

BÖLYÜ®

GREEN CONTRACT CARPET & LVT

Bolyu Contract Carpet and LVT Eco-Forward Green Carpet

Bolyu controls manufacturing from raw material to finished products to reclamation:

- Bolyu provides Durability, Design and is Environmentally Friendly Carpet
Make their own Backing for Broadloom and Tile
- Recycled Backing - Nexterra (industry leading) 85% Post Consumer Waste
Saved over 2.9 Billion water bottles from going to a landfill 2015
Saved over 3 billion beer bottles from going to a landfill 2015
Minimum of 40% recycled Nylon Fiber
100% Wind Energy used to run both Manufacturing and Corp Offices
- Puralex is an All Natural Odor Neutralizer
- Breaks down VOC in the air, eliminates odors for the life of the carpet
Exceed OSHA Requirements - Odor Reduction – 29CFR 1910
- Styles meet or exceed " Heavy Traffic" and "Severe Traffic" TARR Rating
- 100% of products meet Federal Government (GSA) guidelines
- 100% NSF 140-Platinum Certified, First and Only Manufacturer in Industry
- React is our Full Reclamation svc, providing certification of ZERO landfill
