Pikes Peak Chapter CSI January Chapter Meeting

## THE NEGATIVE IMPACT OF NOISE IN LARGE PUBLIC BUILDINGS

**“Increasing population, overcrowded schools, machinery in workplaces, growing transportation, and many other influences, all add to the impact noise is having on our society’s health and well-being. Creating spaces that are quiet and peaceful has a positive impact on every individual’s health and safety.”**

Epic Metals Corporation is entering its 50<sup>th</sup> year of manufacturing long span architectural roof and floor decks. It is a family owned business that has created a niche of creatively designed products that serve multiple functions. Epic’s products can be found in Airport Terminals, Arenas, Indoor Swimming Pools, Gymnasiums, Cafeterias, Hospitals, and many other high volume spaces.

David Mills is the Regional Manager for Epic Metals, and has been employed by Epic since 1998. His territory includes Colorado, Wyoming, Arizona, Utah, Hawaii, and the Western four provinces of Canada. He has worked on hundreds of high profile projects with virtually every firm in his territory. His background in business and construction law have complimented his involvement in architectural sales. The presentation will include a multi-media description of product function, photographs, and time for questions and answers. The purpose of the presentation is to provide insight into the need for proper acoustical performance in high volume spaces.

Date: Wednesday, January 31,

## Interested in Advertising on our new Website?

Our website committee has been working very hard and we are now accepting sponsors and advertisers for our website!! For a fee of \$200 per year, we will place your company's logo and a link to your website on our homepage so that everyone that visits the site will have the opportunity to see that you are a PPCSI sponsor and can click the link to visit your website. Your company logo will also appear on all meeting invites throughout the year. This is a great way to get exposure to our members and guests for your company. If you are interested, please contact any board members for additional information.

## CSI CERTIFICATION PROGRAM

CSI is the construction community's authority on communication and construction documentation. Through CSI's Certification Program, you can develop a conceptual understanding of the entire construction process, and concrete skills in:

- Construction documentation development and administration
- Specification writing and enforcement
- Product research and sourcing
- Communication with the design and contracting teams

CSI's Construction Documents Technologist (**CDT**) certificate is a prerequisite to CSI's Certifications: Certified Construction Contract Administrator (**CCCA**); Certified Construction Specifier (**CCS**) and Certified Construction Product Representative (**CCPR**).

**Are you a Region/Chapter Certification Chair, or an instructor for a CSI Certificate/Certification exam? Check out the [resources available](#) to help you prepare candidates.**
